

## DHM DESIGN

# JEREMY ALLINSON

Senior Associate | Natural Resource Programs Manager

*As a Senior Environmental Planner and Natural Resource Programs Manager, Jeremy has extensive experience in environmental project planning; NEPA compliance; natural resource investigations; aquatic and hydrological assessments; Impact assessment and analysis; permitting compliance; restoration design; mitigation planning and construction administration. His experience involves managing a wide range of planning and development projects both in the public and private sectors. A native to Colorado, Jeremy gets his inspiration from being outdoors, hunting and fishing. Professionally, he believes in striking a balance between environmentally responsible development and protection of natural resources.*

## ABOUT

### EDUCATION

B. of Science in Land Use - Environmental Resources,  
Metropolitan State University, Denver, 2009

### REGISTRATIONS & AFFILIATIONS

Safeland USA/PEC

Western Association of Fish & Wildlife Agencies  
Certified Technical Service Provider

### AREAS OF EXPERTISE

Environmental Permitting & Planning  
Project Siting & Resource Avoidance  
Mitigation & Restoration Planning  
National Environmental Policy Act (NEPA)  
Biological Resource Investigations  
Site Planning & Resource Avoidance  
Environmental Compliance Monitoring  
Clean Water Act Section 404 Permitting  
Wetland Delineation & Restoration  
Stream Habitat Assessments & Restoration  
Fisheries & Natural Resource Management  
Threatened, Endangered and Sensitive Species  
(T&E) Surveys

### RECENT PROJECTS

Marble Basecamp; Marble, CO  
Moon Run Ranch; Snowmass, CO  
Warm Springs Wetland Mitigation Bank;  
Warm Springs, CO  
Aspen Valley Ranch; Aspen, CO  
Basalt River Restoration; Basalt, CO  
BelleJackBlue Ranch; Woody Creek, CO  
Bear Wallow Ranch; New Castle, CO  
Junebug Farm; Eagle County, CO  
Montrose Brownfields; Montrose, CO

## NOTABLE WORK

### Breckenridge Summer Special Uses | Breckenridge, CO

DHM worked with Vail Resorts Development Company, Breckenridge mountain planning staff, the contracting team and staff of the US Forest Service to create a holistic plan for on-mountain summer access. The plan integrates multiple recreational amenities while maintaining the ecological experience of the site and supporting USFS goals for public education and interaction with the natural environment on public lands.

### Services

- Logging Plans
- Special Uses Master Plan
- Trail Analysis and Design
- Scenic Resource Analysis and Design

### Basalt River Restoration | Basalt, CO

*CCASLA Merit Award for Design 2017*

*CASFM Honor Award for Outstanding Achievement 2015*

The Basalt River Restoration Project involved working with a multi-disciplinary team of engineers, hydrologists, planners, and the Town of Basalt to plan, design, permit, and oversee the restoration of the Roaring Fork River. Located within the heart of downtown Basalt, the goal of this project was not only to restore the river systems and riparian systems, but also to integrate the river into the lives of the Basalt residents and visitors. DHM led the significant federal, state, and local permitting for the project and completed all of the site planning, restoration design, and habitat planning.

### Services

- Compensatory Mitigation and Monitoring Report
- US Army Corps Reporting, and Coordination with USACOE
- Wetland Design/Construction and Stream Restoration
- Local and Federal Floodplain Permitting

### Frying Pan Canyon Ranch | Eagle County, CO

DHM Design worked with Aspen Valley Land Trust to develop a master plan for this 143 acre ranch with Gold Metal waters. The goal was to protect the riparian ecosystems and surrounding high desert habitat, but still allow for development within specific building envelopes. The result was a base camp that includes a fishing pond, a habitat pond, connecting riparian stream, a ranch manager house, and fishing cabin. The Fishing Cabin was certified as LEED Platinum and the residence was certified as LEED Gold.
