Designer

EDUCATION

B.S. Landscape Architecture, Colorado State University, 2015

EXPERIENCE

Reynolds Landing

As part of a larger South Platte River improvements project for South Suburban Parks and Recreation, our Denver office completed site planning and renderings for Reynolds Landing. The goals were to improve circulation of bikes, pedestrians and on-river access by separating uses and expanding facilities such as the picnic/viewing areas and restrooms.

Long Road Reconstruction

The City of Greenwood Village Public Works Department is planning to reconstruct the pavement on East Long Road, East Long Lane, and Jackson Street. The project will consist of pavement reconstruction, upgrading of the drainage system and enhancement of the streetscape section. Some early goals that have been identified are to mitigate the winter icing conditions, optimize the effectiveness of traffic calming and improve the pedestrian safety. At this initial public meeting, local residents will hear an overview of the project scope and are invited to provide input to assist in developing alternative streetscape sections that will be generated and presented at a second public meeting.

AWARDS

2015 ASLA Student Merit Award

SELECT PROJECT EXPERIENCE

Ravenna Golf Clubhouse; Littleton, CO

Mountain Sky; Ft. Lupton, CO

South Platte River Trail; Englewood, Sheridan, CO

Wolf River Greenway; Memphis, TN

Lyons Parks Flood Recovery Planning; Lyons, CO

Cordera Filing 4&5; Colorado Springs, CO

Grant Street Medians; Northglenn, CO

The Farm; Colorado Springs, CO

Quick Park; Denver, CO

Beth Eden Baptist Church; Wheat Ridge, CO

Whitham Residence; Jefferson County, CO

Papa's Farm Master Plan; Anchorage, KY

Watson Residence; Douglas County, CO

Cahill Park Playground; Cheyenne, WY

Eagle Valley Elementary School; Eagle, CO

Christopher joined DHM Design as a recent graduate of Colorado State University, with a Bachelor of Science in Landscape Architecture. He was a 2015 Student Merit ASLA Award winner. Christopher is interested in golf course design and landscapes that allow the user to interact, learn and observe nature, art and design. He also enjoys exploring waterways with his kayak and spending time with his two dogs, Miles and Lucky.
