

DHM DESIGN

CAMMIE WILLIS

Associate | PLA

Cammie hopes to inspire others to respect and care about the environment through landscape design. In order to achieve this objective, she strives to incorporate sustainable and artistic design solutions that positively impact the environment and improve human quality of life. Her personal interests in the field of landscape architecture include planting design, preserving natural systems, designing for the public sector, and creating stimulating learning landscapes for children

ABOUT

EDUCATION

M. of Landscape Architecture
Kansas State University 2013
Study Abroad
Centro Studi Città di Orvieto, Italy 2012

REGISTRATIONS

Professional Landscape Architect:
CO (#1298)
PSMJ Project Management Boot Camp 2023
Civil 3D Training, 2021

AWARDS

The ASLA Honor Award, 2013
PGALSA Design Un-Built Merit Award, 2010
Ouray Hot Springs; Ouray, CO - 2018 Merit
Award for Design; Colorado Chapter ASLA
Ridgway Streetscape; Ridgway, CO - 2018 Merit
Award for Design; Colorado Chapter ASLA

AREAS OF EXPERTISE

Recreation Systems Master Planning
Public Process
National Parks
ArcGIS Mapping
Grant Applications
Civil 3D Modeling

NOTABLE WORK

Zion National Park Projects | Springdale, UT

DHM Design has aided in the design of several projects at Zion National Park, including Watchman Campground Loops A, B, & E, the South Entrance Visitor's Center Parking Lot, Emerald Pools Trail repair design work, the South Entrance Shuttle Stop reconfiguration, and the South Entrance Fee Stations reconfiguration and Monument relocation. The group campground at Watchman Campground, Loop E, includes seven group sites that can accommodate 40 people per site. The goal of the campground redesign was to improve the functionality of the campground and to better define user foot paths so that the native vegetation could be protected and restored.

Ouray Parks and Trails Master Plan; Ouray, CO

DHM Design crafted a comprehensive Parks and Trails Master Plan for the City of Ouray. The design team looked at the parks and trails in and around the city; the study area encompassed approximately 23 acres of parks and open space. To develop the master plan, the design team underwent a public process with meetings and a community survey to receive input from the community. The team also evaluated the feasibility of the proposed facilities improvements that were outlined in previous planning efforts. Recommendations for each of Ouray's parks and trails in the study area were prepared with graphic master plans, maps, cost estimates, and implementation strategies that the city can use to guide future development. The plan was completed in 2023.

Naturita Town Park Playground; Naturita, CO

The Town of Naturita hired DHM Design to develop a Master Plan for multiple town properties. The community has limited public resources and there was a need to implement the Master Plan incrementally. The town had been awarded a grant from Great Outdoors Colorado (GOCO) to implement improvements to its Town Park, which is centrally located and sits along the San Miguel River. DHM presented preliminary playground options with different manufacturers and color schemes to the Town and community members. After a selection was made, the Town held a community build for the first phase of the playground, and the second and final phases were completed in a timely manner.
